Graphic Designer

Description

The ideal candidate should possess:

- Knowledge of Adobe Photoshop, Illustrator, and other 2D graphic design software
- Knowledge of Blender or other 3D animation software
- Knowledge of office automation software
- A strong eye for visual composition
- Versatile, flexible and proactive
- Effective time management skills and the ability to meet deadlines
- Good command of English, both written and spoken
- The willingness to listen to feedback and use it to improve

Responsibilities**The successful applicant will be involved in:**

- Providing an artistic interpretation to graphical requirements, such as backdrops, brochure layouts, posters, websites etc.
- Preparing rough drafts and presenting ideas
- Creating and designing various materials for print and digital collateral such as brochures, posters and flyers
- Liaising with external printers to ensure deadlines are met and material is printed to the highest quality
- Developing 3D animations in relation to the company and its products
- Travelling if and when the need arises
- Assisting with other miscellaneous tasks as required
