Altern Limited is a Maltese company working in areas of **Sustainability and Alternative Energy**, with the target market being the industrial and commercial sector. With over 10 years' experience, Altern has been involved in several unique

projects related to the design and installation of LED Lighting Systems and Photovoltaic Systems. Other fields of expertise lie within Energy Auditing, Energy Management, Battery Storage, and Co-generation technologies. The Altern Team comprises of engineers, technicians, and installers, and is currently looking to reinforce the Installation Team.

## Installation Team Lead

### Description

The successful candidate shall be involved in the implementation of projects. This role will require resource management, overview of the Team and installation of the systems. The post shall report to the Operations Manager and liaise directly with the other Department Owners. The position offers a unique opportunity for the individual to lead the department, develop it as they deem best and gain experience in innovative areas and their on-site application. The ideal candidate shall:

- Plan projects and their timelines as per company policies
- Liaise with colleagues and clients on scheduling of works
- Be capable of Human and Resource Management
- Implement projects related to LED Lighting, Solar Energy, Energy Storage
- Implement of Electrical and Mechanical Systems
- Prepare and procurement of stock, materials and performing deliveries
- Have fault finding and problem-solving skills

At Altern, we strive for top quality projects. To ensure this, our staff is assigned a workload that energises, engages, and motivates them, leading to the best working environment and results.

Training shall be provided for any areas worked upon, and the candidate may be selected for exclusive training and courses as part of their on-going growth.

### Qualifications

**All applicants** are expected to have:

- A good technical & academic background
- Electrical Wireman Licence A and B
- Hands on experience
- Good project and human management skills
- Good Microsoft Office and Email use and experience
- An outgoing personality
- A clean driving licence
- High motivation and capability of working on own initiative

- The capability of undertaking the completion of projects
- Eye for detail and quality
- Ability to work in a team

Applicants are kindly requested to send written applications together with a detailed CV by e-mail on [info@altern.mt](mailto:info@altern.mt). Altern is an equal opportunities company and shall treat all applicants equally.
